—Assortment, hardy varieties for Rock Gardens.....	7.50
—adolphi, guatemalense, lineare variegatum, corsicum, diffusum, or brevifolium.....	7.50
—pachyphyllum .....	5.00
Sempervivum—in Assortment .....	15.00
Aloes—in Assortment .....	15.00
Aloes—in Assortment, Delivery after March 1 .....	10.00
—one each of 20 varieties .....	\$5.00

Wholesale prices quoted upon request on other items and on unrooted cuttings of some varieties in quantity.

The following to be ordered and shipped directly from our Eastern Agency:

Soledad Rock & Water Gardens  
Eastern Agency, Edna L. Breckbill,  
Lampeter, Pa.

Assorted Succulents in 2½ in. paper pots:

Less than 100 .....	8c
100 .....	\$7.50
1000 .....	70.00

f. o. b. Lampeter, Lancaster County, Pa.

Write for quotations on separate varieties in which you are especially interested.

### POTTERY

Hand-made, red bowls, 4 to 5 inches across.....	\$10.00 per 100, f.o.b. San Diego
Sample shipped with plant order, postpaid.....	15c

### WATER LILIES

Water Lilies, 40% off Retail List on orders for 5 of a kind or total orders of \$25.00 or over. Orders booked for April delivery, which we advise for the East and Middle West; unless otherwise requested.

## RETAIL PRICE LIST

# SUCCULENTS

Plants that have developed the ability to store within their structures moisture to enable them to survive arid seasons—Cactus—are Succulents. The Succulents listed herein are not cactus. Most of them have an architectural beauty in the modern motif that might well be called, "frozen music."

Few plants are so well adapted to Southern California's climatic conditions as Succulents, which are indispensable to the California landscape.

Succulents are excellent material for Summer Rock Gardens in the Middle West and East, while many varieties of Sedum and Sempervivum are hardy outside in all parts of the United States.

With the advent of the Miniature Garden and Dish Garden, this group of plants has come into its well-deserved popularity.

"D" before a plant's name indicates its especial suitability for use in Dish Gardens.

Plants which we are not now growing in quantity and are not always able to supply, are marked (\*)—quantity and prices upon request.

Prices herein are for small, well-rooted plants, f. o. b. Pacific Beach, San Diego, Calif., Cash with order.

Orders for \$2.00 or more will be sent prepaid by Parcel Post if an additional 10% of the amount of the order is included with the order.

Prices quoted on larger specimens upon request.

If it is a Succulent, and we do not have it, we will get it for you or tell you where you can find it.

## AIZOACEAE

### MESEMBRYANTHEMUM

Varieties marked with the letter "G" are good ground covers.

Unless marked with (\*) or otherwise priced .....25c each

Special prices on ground-cover varieties in quantity.

aberdeenense (compact; purple-red)\*

acutangular (sheathed)

G—aequilaterale (coarse, creeping; purple) 15c

D—agninum (gray, stemless; yellow)

album (stemless) 50c

alstonii (intense ruby-red; winter flowering) 75c

aureum (bright orange)

bellidiflorum (stemless; light salmon-pink)\*

brownii (flowers changeable rose to orange) 15c

D—bulbosum (compact; red-purple; summer flowering) 15c

D—caulescens (Tall deltoides) (interesting glaucous foliage) 15c

cordifolium (red-purple) 10c

criniflorum (annual)

G—croceum (trailing; fiery copper—reverse red; constant bloomer)

densum (red-purple)\*

echinatum (prickly-appearing leaves) 15c

G—ecklonis (spreading; white) 15c

G—edule (coarsely trailing; red or yellow) 10c

D—felinum (green tigrinum)

G—filicaule (prostrate, wiry; crimson-pink) 15c

G—floribundum (creeping, crystalline; small, mauve-pink) 10c

geminum (stemless) 50c

D—glaucum (stiffly erect; light yellow) 15c

D—granulata (dwarf; orange)

integrum (white)\*

intonsum (tuberous rooted; white) 50c

lacerum (bushy, interesting foliage; lavender-pink)

G—laeve (prostrate; yellow) 15c

D—lehmannii (stubby, gray-green; straw-colored)

## MESEMBRYANTHEMUM—Continued

- linguaforme (tongue-shaped, glossy green; large bright yellow)
- longum (similar to above)
- D—maximum (shrubby, glaucous, leaves cleaver-shaped; lavender-pink)
- muricatum (dwarf deltoides)
- musculinum (stemless)\*
- nobile (stemless; yellow)\*
- odoratum (night flowering; sweet-scented, yellow) 35c
- perviride (stemless; purple) 50c
- puterillii (compact, shrubby trailer; amaranth-purple)
- D—rhomboideum (stemless; red-tipped yellow)
- rhopalophyllum (baby toes) 35c
- G—roseum (deep rose-pink) 10c
- G—roseum hybd. (shell-pink) 15c
- D—scapigerum (stemless; yellow) 35c
- speciosum (tall; orange-red)
- speciosum (yellow)\*
- spongiosum\*
- stanleyii (yellow)\*
- tenuifolium (very free flowering; red-purple) 15c
- D—tigrinum (stemless, leaves edged with teeth, white dotted; yellow)
- D—tigrinum superbum (leaves broader and thicker) 35c
- D—tuberculatum
- D—uncinatum (sheathed glaucous; lavender-pink)
- D—veruculatum (leaves glaucous, erect, cylindrical; whitish) 15c
- D—vespertinum (stemless; yellow—reverse orange)
- D—vittatum (stemless, wrinkled; yellow) 35c
- alias (shrubby; glaucous; lavender-pink) 15c

## CACTI

While we do not specialize in cacti, we grow a good selection of varieties in small quantity for local sales, in addition to those listed. We are also getting together an unusually good collection of Epiphyllum (Phyllocactus) and have a few varieties of these now ready for sale.

Epiphyllum, mixed varieties .....	25c
Opuntia microdasys .....	15c
Opuntia monacantha variegata .....	25c
Opuntia subulata .....	15c
Cereus, mixed seedlings .....	25c

## SEED

Seed - Aloes and other Succulents of our own growing—list mailed in April upon request.

## WATER GARDENS

Water is always interesting. Place it in a well-designed pool, stock it with fancy gold fish and choice water plants, dress its margins with water-worn rock and suitable rockery and margin plants, and you will no longer wonder why water gardening is so popular. Your water garden will become a gathering place for the family and friends, a focal point of interest and beauty.

### HARDY WATER LILIES

#### Nymphaea
